

PBE Runner Instructions

Runners are responsible for collecting completed paper answers for each team and providing them to the judges.

Most runners will be divided into groups of three. Each group will be responsible for collecting the papers for their set of tables.

When the event starts:

1. The group assembles at the head of their assigned column.
2. When time is called for a question, one runner proceeds down the aisle, collecting the papers and keeping them in order.
3. Once all the papers are collected, the runner takes their organized stack of answer sheets and delivers them to the collection table on the back wall of the testing area.
4. After the papers are delivered to the collection table, the runner returns to the head of their column to prepare for the next question.

A smaller group will be responsible for covering the collection tables. The team working at the collection tables will wait for each stack of answer sheets and then deliver them to the next collection table or the reviewers table.

On the day of the event, please meet by the reviewer tables (to the left of the stage) by 8:30 a.m. to be assigned a section. Please be prepared to be standing or walking during the entire event. You will also need to be in either Adventurer, Pathfinder, or Master Guide Class A uniform. If you have any questions, please contact the runner team leader, Robert Boismier, at boisro@gmail.com.

Thank you!
